

100 PERCENT

From the album *100 PERCENT*, written by Gary L. Vincent, BMI

Chorus: Baby if you want to be with me
Stand by through thick and thin
Don't say that you're going to be faithful
Then turn around and leave again

'Cause if you want to find true love
We're gonna try it till our last dollar's spent
Than turn around and paint the town
With love 100 PERCENT

Line 1: Baby it hurts me – When I go to cruise the town
To see you out there – With some new guy that you found

I think that we could make a perfect pair
So here's my chance to show you that I care
But I'm not gonna fuss and I'm not gonna fight
But if you wanna be with me tonight

Repeat Chorus

Line 2: You know I want you – Baby to be all mine
But I won't hold you – If you're gonna cross that line

I think that you and I could go some where
So here's my chance to show you that I care
But I'm not just another dance for a dime
So don't blow your chance with a love like mine.

Repeat Chorus

Bridge: 100 Percent – Baby you better think twice
100 Percent – Before you go off and roll the dice
And take a gamble on another who might leave you
standing alone and full of lament
Baby don't settle for nothing but 100 Percent!

Repeat Chorus – (Once with drums only / Repeat with full instrumentation)

Tag: Yeah, we're gonna turn around and paint the town
With love 100 PERCENT.
