

Whiskey Kind Of Love

From the album *100 PERCENT*, written by Gary L. Vincent, BMI

- Line 1:** Took another sip of liquor
But to tell you the truth, I never liked the taste
Thinking about the love we had
It would be a shame to waste
- Buildup:** Now I think about the times when you were close to me
But instead of holding you, I hold your memory
- Chorus:** And it's a Whiskey Kind of Love that comes back to haunt me again
Why did we ever part? We're more like strangers now than friends.

But at least I'll have my memories
Whether you're here or not – girl my love will be true
And I guess what I have is a Whiskey Kind of Love for you
- Line 2:** Finished off the bottle
And left the bar, the band is way too loud
Hope you'd be coming 'round
But you're never in the crowd
- Buildup:** Now I think about the times when you were close to me
But instead of holding you, I hold your memory
- Chorus:** And it's a Whiskey Kind of Love that comes back to haunt me again
Why did we ever part? We're more like strangers now than friends.

But at least I'll have my memories
Whether you're here or not – girl my love will be true
And I guess what I have is a Whiskey Kind of Love for you
- Tag:** Yes, at least I'll have my memories
Whether you're here or not – girl my love will be true
And I guess what I have is a Whiskey Kind of Love for you
