

Bridge Of Hope

From the album *Passion, Pleasure, & Pain*, written by Gary Lee Vincent, BMI

Line 1: Another midnight waltz with you my love
In the valley of the dark
You know the thieves are in the shadows
And they're coming for your heart

So I hold your body closer
And we brace against the wind
And I kiss you girl so desperately
And we fall in love again

Initial buildup: We're standing at the point of no return
Girl, I can feel the heat
And I don't want to burn

Pre-Chorus: So take my hand pretty baby, come on lets go
(faster) I can see the light at this end of the road
And you and I will cross the bridge of hope

Chorus: Crossing over the bridge of hope
Girl I know that we can make it,
But that is all I know

Crossing out into forever together
So come on baby lets go
Lets cross the bridge of hope

(Piano and guitar)

Line 2: Another smoke filled bar at one a.m.
In the city of the night
I've been searching for an answer
I been searching for the light

Lost and lonely faces
Keep appearing in my mind
And I leave this club not knowing
What it is I leave behind

(Continued on Page 2)

Initial buildup: Girl, I can see the sins that are buried in your past
Just give me one more kiss tonight,
That is all I ask

Pre-Chorus: So take my hand pretty baby, come on lets go
(faster) I can see the light at the end of this road
And you and I will cross the bridge of hope

Chorus: Crossing over the bridge of hope
Girl I know that we can make it,
But that is all I know

Crossing out into forever together
So come on baby lets go
Let's cross the bridge of hope

Repeat Chorus
