

## Salvation

From the album *Passion, Pleasure, & Pain*, written by Gary Lee Vincent, BMI

**Line 1:**     Baby it's been so long now,  
              And I know it's been so cold  
              And I've never felt so reckless  
              And I've never felt so bold

              But you're flying in like an angel  
              From the heavens far above  
              And I feel like a beast on a fiery feast  
              What the hell let's call it love

**Chorus:**     Girl, you hold the dreams of an angel  
              But the demon here is me  
              And it's paradise as far as the eye can see

              I've been a prisoner  
              But you've set me free  
              Darling, you bring salvation to me

**Line 2:**     Baby we tried for nights before  
              But it's never been like this  
              And I have seen the lights of our sweet future  
              By the way that you kissed

              You're soaring in like an angel  
              On the fiery wings of the night  
              And I know all day long that it seemed so wrong  
              But right now it feels so right

*Repeat Chorus*
